

# PANTONMA

## MICRO

### OBSTACLE AVOIDANCE MODULE

The obstacle avoidance sensor will work in all direction.

When it senses that there has obstacle within 50-80CM, the drone will not keep approaching, and it will fly back, which is a double protection for player and people surrounded.

### YOUR FLYING COMPANION BEGINNER'S FAVORITE: MORE STABLE AND MICRO PORTABLE SIZE FOR EASIER CONTROL

#### 1. Flashing LED

Soft flashing LED for better visibility.

#### 2. Reinforced Structure

Robust and flexible central body with reinforced single arms.

#### 3. Flexible Propellers

Designed with safety in mind: 4 flexible propellers will all lock if one propeller stuck.

#### 4. Modular Design

Modular design for increased ease of maintenance.

## IMPROVED FLIGHT PERFORMANCE

## PANTONMA APP LEADS YOU INTO THE NEW AERIAL ERA

KAI DENG has redefined the professional aerial experience. Your mobile phone now could be used as a remote controller to control your drone. And there are richer and more convenient controlling functions. Right now, install the "PANTONMA" APP to your mobile phone and enjoy the special functions that PANTONMA brings you. "PANTONMA" not only has remarkable interface, but also has the functions of one-key takeoff/land, track flight. You will enjoy simple and fluent flying experience.

Newest motor shield structure makes the replacement of motor becomes very simple. Just unscrew 3 screws to replace motor.

### ROTOR DESIGN

The newest 13.5 inch quick release rotors are built with the unique design. They have been enforced with new carbon fiber compound material to ensure excellent performance with increased stability.

### SHOCKPROOF GEAR PAD

Worked with Automatic Landing function, makes the Landing Process perfectly.

### TOUCH POWER BUTTON

As aircraft with touch buttons ,it is more aesthetic,safe, and easy to operate.

6 Axis Gyroscope

3D Flips Rolls

CF Mode

Auto Hover

Obstacle Avoidance

HD Camera

2.4Ghz R/C

One Press Automatic Return

**WIDE RANGE OF ACCESSORIES  
FOR ALL YOUR NEEDS**

**BATTERY MODULE**

Newest design of battery module, with 380mAh capacitance.

**OBSTACLE AVOIDANCE**

Obstacle avoidance sensor with strong auto avoid system, a double protection for player.

**SPECIFICATIONS :**

**App**

PANTONMA app compatible with smartphones and tablets running on iOS, Android.

**Range**

Up to 40 meters

**Connectivity**

Long-range 2.4 GHz spread spectrum transmitter

**Design**

Plastic structure with specific design for robustness

**Stability**

Provided by data fusion of an obstacle avoidance sensor and a 6-axis gyroscope, an adjustable camera and a pressure sensor

**Battery**

380mAh Lithium-Polymer and removable for Aircraft

Lasts up to 6.5 mins (6 mins with camera) and full recharge in 60 mins

**Indicators**

Bicolor LEDs indicate the status of your PANTONMA Drone

**Weight**

Aprx 56g(Standard version)

**Dimensions**

12.1X12.1X4cm without shields

19.5X19.5X4cm with shields

Propellers' diameter: 86mm
